

PELASPAN-PAC®

Fast, convenient and economical, Storopack's PELASPAN-PAC® Loose-Fill offers the highest performance-to-cost ratio of any packaging material. Dispensed directly to the packing station, this clean, easy-to-use packaging material requires no training and keeps your production lines moving while offering reliable protection for your products.

- High performance-to-cost ratio
- Light weight keeps shipping costs down
- Fast and easy to use
- Reusable and recyclable
- Three product choices:
 - Readily flowable industry standard PELASPAN-PAC®
 - 100% recycled polystyrene PELASPAN-PAC® meets Green Cross certification for post- and pre-consumer waste content
 - Anti-static PELASPAN-PAC® ideal for shipping electronics and meets U.S. Military regulation specification #PPP/C/1683

Ideal Packaging In So Many Ways...

PELASPAN-PAC® Loose-Fill — Interlocking for increased performance

The proprietary “S” shape design of Storopack’s PELASPAN-PAC® Loose-Fill offers multiple benefits for today’s shipper. This special shape allows the packing material to interlock within the box adding support to help prevent carton collapse. In addition the interlocking effect creates a stronger cushion and reduces migration for more reliable product protection.

Reusable and recyclable

As with all Storopack products, our goal is to find the optimal environmental approach with our packing materials. Because of this we make PELASPAN-PAC® Loose-Fill durable enough to be used over and over again. And when it’s ready to be discarded it can be recycled at one of Storopack’s many participating recycling facilities or a local drop-off center that accepts EPS loose-fill for recycling.

A Storopack packaging reclaim station makes recovering loose-fill easy and neat.

High-speed delivery direct to the packer

Storopack designs and builds customized systems that automate the overhead delivery of loose-fill to packing stations and speed lines for maximum productivity. These delivery systems alleviate storage, handling and overfill issues bringing you the highest levels of productivity and cost savings.

From simple dispensers with hoppers to sophisticated, fully automated pneumatic systems, Storopack can engineer a delivery system specifically for your packing needs and environment.

Visit our website at www.storopack.us for more information about PELASPAN-PAC® Loose-Fill and delivery systems.
