

PAPERplus® Shooter³

ULTRA-FAST AND
USER-FRIENDLY

PAPERplus Shooter³ COMBINES HIGH PRODUCTION SPEED WITH OPTIMUM PRODUCT PROTECTION.

If you need a system that can produce protective packaging materials at lightning speed, then look no further than the PAPERplus[®] Shooter³. The paper cushion system from Storopack is ultra-fast: it can process up to 160 meters of recycled paper a minute and creates paper cushions designed to fill voids in boxes and perfectly protect shipping goods.

The machine is very user-friendly and offers three operating modes (automatic, manual, and on-demand), making it easier than ever to tailor paper cushion production to specific packing processes. The compact, lightweight device is available as a freestanding version and a tabletop model, allowing flexible integration of the PAPERplus[®] Shooter³ into any production process.

PAPERplus[®] Shooter³ AT A GLANCE

METERS PER
MINUTE**

STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

PAPERplus[®] MEANS FOCUSING ON OPTIMAL AND SUSTAINABLE PROTECTION.

Whether filling voids, cushioning from impact shock or blocking and bracing goods against transport damage: Storopack's PAPERplus[®] paper cushioning offers all-around perfect protection for your packaged goods, whether they're small and fragile or bulky and heavy. Our product portfolio is just as diverse as the protective functions of PAPERplus[®].
