

FOAMplus[®]
REMOTE BATCHER SYSTEM
EFFICIENT AND ERGONOMIC

THE REMOTE BATCHER SYSTEM OFFERS AN IDEAL SOLUTION FOR THE STORAGE OF FOAMplus® COMPONENTS.

The Remote Batcher System for FOAMplus® packaging systems by Storopack is ideal for companies with a high throughput that are looking to increase packaging efficiency. The innovative system allows for one or more FOAMplus® machines to be connected to one set of totes via remotely placed pumps. The separately placed pumps don't have to be moved when changing totes thus offering an ergonomic solution according to Storopack's Working Comfort® principle and therefore decreasing tote transfer time.

Lightweight and stable:

FOAMplus® foam packaging is individual and particularly lightweight protective packaging that adapts to the contours of the packaged goods and reliably absorbs shocks.

THE FOAMplus® REMOTE BATCHER SYSTEM AT A GLANCE

Compatible foam packaging systems	▶	FOAMplus® Bag Packer Systems ▶ FOAMplus® Hand Packer ²
Flexible and compact	▶	CAN BE INSTALLED WITH ONE OR MORE FOAMplus® PACKAGING SYSTEMS FOR A COST AND SPACE EFFECTIVE SOLUTION
Efficient	▶	THE SYSTEM UTILIZES GRAVITY TO PULL CHEMICALS TO THE BOTTOM OF EACH TOTE, ENSURING 100% OF BOTH COMPONENTS ARE USED
Ergonomic	▶	PUMPS DON'T NEED TO BE MOVED AS THEY WILL PERMANENTLY STAND IN THE REMOTE BATCHER SYSTEM
Fast	▶	SYSTEM CAN QUICKLY BE DISCONNECTED FROM THE BOTTOM OF EACH TOTE, ALLOWING FOR A FASTER TRANSFER

STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

FOAMplus® IS HIGH-PRECISION PACKAGING, LIGHT AS A FEATHER.

Our FOAMplus® packaging system protects your products using true-to-contour padding made of shock-absorbing polyurethane. Foam padding from Storopack is environmentally friendly as it is lightweight, reduces transport costs, and can be used for the same products.
