

MOLDING

# SUSTAINABLE RAW MATERIALS

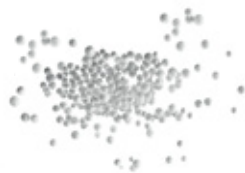

## RECYCLED AND RECYCLABLE MATERIALS

# SAVING RESOURCES MEANS HARNESSING SUSTAINABLE SOLUTIONS.

Alongside conventional materials for protective packaging and molded parts, Storopack customers can also draw on sustainable alternatives. Expanded foams made from recycled

materials represent an exceptionally attractive solution for companies that need high-performance products or packaging while taking sustainability seriously.

## RECYCLED RAW MATERIALS

rEPS	Styropor® Cycled™	rEPP	rEPP OCEAN
100% recycled EPS	100% plastic waste*	25% recycled EPP	15% plastic waste
	<small>*mass balance principle</small>		
Post-consumer EPS or PS waste	Mixed or contaminated post-consumer plastic waste	Post-industry EPP waste	Post-industry PP (Deep sea fishing)
-	Food safe	-	-
Recyclable	Recyclable	Recyclable	Recyclable

## SUSTAINABILITY AT STOROPACK

We not only develop solutions from sustainable and resource-saving raw materials, we have also set ourselves the goal of ensuring that no plastic waste is released into the environment. Together with around 40 companies, Storopack is part of the

global „Alliance to End Plastic Waste“ initiative, which organizes various projects and measures against plastic waste. We are also part of „Big Blue Ocean Cleanup“, „CEFLEX“ and „Operation Clean Sweep“.

### STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

### SUSTAINABILITY MEANS RELYING ON INNOVATIVE SOLUTIONS.

New, more sustainable raw materials are a great way to protect the environment and natural resources. This is why many of our products are made using renewable or recycled materials and can be recycled themselves after use.
