

STOROPACK

LOCAL YET INTERNATIONAL

PERFECT PROTECTIVE PACKAGING

ACCESSIBILITY MEANS CLOSE PROXIMITY TO CUSTOMERS WORLDWIDE.

Storopack is a specialist in protective packaging and technical molded parts. As a global, family-run company, tradition, and innovation play a key role in everything we do. We aim to offer customers the perfect protective packaging solution and support them over the long term – this idea shapes our daily activities. Established as a

family-run company in 1874, Storopack has been operating under the name Storopack Hans Reichenecker GmbH since 1959 and is located in Metzingen, Germany. We are aware of our responsibility towards society and the economy and not only want to assume it but also actively help shape it. Our Vision & Guidelines form the basis of our activities.

2 Divisions

The Molding division produces tailored protective packaging, temperature controlled packaging, and technical molded parts made of expanded foams for use in automotive, pharma and foods.

The Packaging division offers flexible protective packaging with air cushions, paper pads, PU foam packaging systems, loose-fill packaging materials, and their integration into existing packaging processes.

4 Dimensions of Packaging

At Storopack we utilize the four dimensions of packaging to understand the client's needs.

INTO-THE-BOX

How effective, efficient and ergonomic is your packing process?

AROUND-THE-BOX

How well is your packing integrated into your intralogistics?

IN-THE-BOX

How well are your products protected?

OUT-OF-THE-BOX

How are your customers' unboxing-experiences?
