

**SUSTAINABILITY** MEANS  
THINKING ABOUT TOMORROW,  
TODAY.

# SUSTAINABILITY AT STOROPACK

Sustainability encompasses many aspects. Whether environmental, economic, or social issues, the underlying principle is the same, i.e. to live in a way that enables future generations to have a life that is just as good as – or even better than – our own. As a family-run company, we take these principles extremely seriously. That’s why they guide our decisions and our day-to-day activities.

## ENVIRONMENTAL POLICY

Our products are made of virgin raw materials or where possible with up to 100 % post consumer recycle content. We already generate approximately 30 percent of our sales with products made from recycled or renewable raw materials. This is a very high number in our industry.

# 30%

of our sales are generated with products made from recycled or renewable raw materials.

## PRODUCTS MADE FROM RENEWABLE OR RECYCLED RAW MATERIALS

Sustainable raw materials are a great way to protect the environment and natural resources. Therefore, our product-development experts are increasingly using suitable renewable or recycled materials for our products. Products from renewable resources: PAPERplus® Classic Grass, AIRplus® Bio, PELASPAN® Bio, PAPERplus® paper pads. Products from recycled raw materials: AIRplus® Recycle, FOAMplus® 5504R, PAPERplus® recycled paper, PELASPAN®.

## WE ARE PART OF:

## STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

## SUSTAINABILITY MEANS TRUSTING NATURE.

New, more sustainable raw materials are a great way to protect the environment and natural resources. This is why many of our products are made using renewable or recycled materials and can be recycled themselves after use.
